Produktbeskrivelse

Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

Formica® høytrykkslaminat (HPL) lages ved å binde sammen flere lag impregnerert papir under høyt trykk og høy varme for å skape et slitesterkt, solid og hygienisk overflatemateriale. Formica® Colors-, Patterns- og Woods-seriene er høytrykkslaminat som fås i horisontal postformingskvalitet (HGP) som standard. Brannhemmende HPL (VFP-kvalitet) kan også leveres på forespørsel.

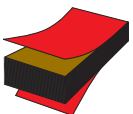

ColorCore®

SOLID COLOUR LAMINATES by FORMICA GROUP

ColorCore® fra Formica Group er et svært slitesterkt og spennende overflatemateriale, 1,3 mm tykt, med de høye overflateegenskapene til Formica® dekorative laminater med massiv gjennomgående farge i tillegg. Med den homogene fargen unngår du den mørke linjen som ofte er forbundet med laminatkanter og gjør det mulig å skape dekorative effekter med gravering og sandblåsing. ColorCore med Matte 58 overflate øker slitestyrken og reduserer det visuelle inntrykket av avskallning og striper. ColorCore er ideell til bruk på benkeplater, butikkdisker, dører og arbeidsflater.

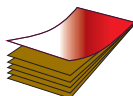

ColorCore fås i farger utvalgt fra Formica Colors-serien. På grunn av de spesielle egenskapene til ColorCore er det ikke alltid mulig å få eksakt matching mellom ColorCore og Formica Colors. Vi anbefaler at man sammenlikner faktiske prøver før spesifisering eller produksjon.

Formica® Compact

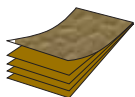

STRUCTURAL LAMINATES by FORMICA GROUP

Formica® Compact er et homogent høytrykkslaminat, bygd opp av flere lag kraftpapir for å gi laminat i tykkelser fra 2 mm til 20 mm. Det har en dekorativ overflate på begge sider og er ideelt til bruk i toalettavlukker, skapdører, veggpaneler eller laboratoriemøbler. Det egner seg spesielt til bruk på steder med høy luftfuktighet og mye bruk. Med en densitet på 14 kg/m² (for 10 mm tykkelse) er Compact imponerende sterkt og slagfast, med en bemerkelsesverdig strukturell stabilitet som ikke krever noe bæremateriale ved tykkelser over 6 mm. Formica Compact er sertifisert med CE-merket for å imøtekomme eller overgå europeiske krav til helse, miljø og sikkerhet.

PREMIUM GLOSS FINISH by FORMICA GROUP

AR Plus® High Gloss Colors og Woods tilbyr et problemfritt, slitesterkt høyglanslaminat med dobbelt så sterk overflate som standard høyglans laminat. AR Plus-teknologien gir en overflateglans som er svært bestandig mot skjemmende slitasje, slik at det høyglansede laminatets levetid forlenges. AR Plus høyglanslaminat er i 1,2 mm tykt i postformingskvalitet. På grunn av dette materialets økte tykkelse, anbefaler vi en minimumsradius på 15 mm. Brannhemmende AR Plus-laminat (FAR-kvalitet) kan også leveres på forespørsel.

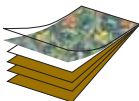

DecoMetal®

METAL LAMINATES by FORMICA GROUP

DecoMetal® fra Formica Group lages ved å bruke ekte metallfolie over en laminatkjerne for å lage imponerende metallaminater som er slitesterke, men svært lette sammenliknet med metallplater. På noen metallaminater bruker vi overflater og mønstre for å skape enestående effekter.

Vi har et komplett utvalg flotte farger, mønstre og overflater. Den nominelle tykkelsen varierer, avhengig av metallfolie og tekstur.

DecoMetal-laminater oppfyller kravene i EN438:2005 Grade MTF med IMO/MED og USCG brannkravgodkjenning. Be gjerne om spesifikke detaljer.

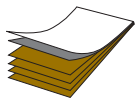

Younique®

DESIGN A LAMINATE by FORMICA GROUP

Younique® fra Formica Group er et høytrykkslaminat der kunden kan få spesial tilpasset sine farger og motiver etter eget ønske. Formica®-laminater som lages med Younique-tjenesten tar inn det trykte bildet i selve laminatstrukturen og ikke bare på overflaten. Dermed oppnår man langt større bestandighet mot skade og enkelt vedlikehold. Laminater som er lagd med Younique-tjenesten kan enten være ensidig høytrykkslaminat eller Compact i én- eller tosidig format med varierende tykkelse og tekstur.

Alle Younique-prosjekter prissettes etter volum og kompleksitet. For mer informasjon om dimensjoner, pristilbud, ledetid, filoverføringsalternativer osv., gå inn på www.formica.com eller kontakt nærmeste Formica Group salgskontor eller -representant.

Formica® Magnetic Laminate

SURFACES FOR COMMUNICATING by FORMICA GROUP

Formica® Magnetic Laminat er et dekorativt laminat med alle de fordelene og den førsteklasses kvaliteten som tradisjonell Formica®-laminat er kjent for, men har i tillegg egenskaper som er ideelle for kommunikasjon og presentasjon. Formica Magnetic Laminate gjør det mulig å skape praktiske, morsomme og funksjonelle rom hjemme, på skolen eller på arbeidsplassen. Nøye utvalgte farger og en rekke utvalgte overflatestrukturer fra Formica® Colors og DecoMetal®-seriene gjør det enkelt å utforme ulike applikasjoner og miljøer innen varehandel, utdanning, kontorer og boliger.

Alle har svært høy magnetisk effekt, og kan skrives på med kritt eller spesielle markeringspenner. Dette gjør dem ideelle til bruk som veggtafler for visning, presentasjon og informasjon. De kan også brukes som en perfekt bakgrunn for lysbildevisning.

Younique®

DESIGN A LAMINATE *by* FORMICA GROUP

Younique® by Formica Group er et høytrykkslaminat der kunden kan få spesial tilpasset sine farger og motiver etter eget ønske. Formica®-laminater som lages med Younique-tjenesten tar inn det trykte bildet i selve laminatstrukturen og ikke bare på overflaten. Dermed oppnår man langt større bestandighet mot skade og enkelt vedlikehold.

Younique® by Formica Group gir deg en unik tjeneste slik at du kan designe et laminat og integrere mønstre, logoer, fotografier eller grafikk i utformingen, skapelsen og installeringen av prosjektet ditt.

Younique® utnytter det seneste innenfor trykkteteknologi for å gi optimal visuell gjengivelse av dine motiver og originale dekor. Mulighet for både digital- og silketrykk er en annen fordel Formica Group byr på. Vårt team vil gi deg råd om de beste trykkealternativene for dine prosjektbehov for bildeoptimering og den mest økonomiske løsningen på prosjektbasis.

Produktkvaliteter

Denne kolleksjonen inneholder følgende kvaliteter av dekorative laminater, der hver har sine egne overflateegenskaper.
Disse kvalitetene er i henhold til EN438:2005.

Formica® Laminate

Kvalitet HPL/EN 438-3 HGP:

Dekorativt, horisontalt, høytrykkslaminat til generell bruk, postformbar. (0,7 mm nominell tykkelse).

Kvalitet HPL/EN 438-3 HGS:

Dekorativt standard høytrykkslaminat til generell bruk. (0,7 mm nominell tykkelse).

Kvalitet HPL/EN 438-3 HGF:

Horisontalt, brannhemmende, dekorativ høytrykkslaminat til generell bruk. (1,0 mm nominell tykkelse).

Kvalitet HPL/EN 438-8 ATP:

Perlemorlakkert, postformbart, dekorativt høytrykkslaminat til design. (1,2mm nominell tykkelse).

Kvalitet VFP:

Vertikalt, brannhemmende, postformbart, dekorativt høytrykkslaminat. (0,7mm nominell tykkelse).

VFP er ikke med i kvalitetsklassifiseringssystemet EN 438.

ColorCore® by Formica Group

Kvalitet HPL/EN 438-9 BTS:

Gjennomfarget, dekorativt høytrykkslaminat, standard kvalitet.

Kvalitet CAR:

Slitesterkt, gjennomfarget, tynt, dekorativt høyglanslaminat.

CAR er ikke med i kvalitetsklassifiseringssystemet EN 438.

Formica® Compact

Kvalitet HPL/EN 438-4 CGS:

Kompakt, dekorativt standard høytrykkslaminat til generell bruk. EN 13501 Euroclass D-s2,d0

Kvalitet HPL/EN 438-4 CGF:

Kompakt, dekorativt, brannhemmende høytrykkslaminat til generell bruk. EN 13501 Euroclass ≥ 6 mm B-s1,d0.

AR Plus® by Formica Group

Kvalitet PAR:

Høytrykkslaminat, slitesterkt, høyblankt, postformbart.

Kvalitet FAR:

Brannhemmende dekorativt, standard høytrykks- høyglanslaminat.

PAR og FAR er ikke med i kvalitetsklassifiseringssystemet EN 438.

DecoMetal® by Formica Group

Kvalitet HPL/EN 438-8 MTF:

Brannhemmende, dekorativt høytrykks- metallaminat til generell bruk.

Kvalitet HPL/EN 438-8 MTP:

Dekorativt, høytrykks- metallaminat, kan postformes.

MTF & MTP kvaliteter anbefales for vertikal bruk.

DecoMetal®-laminater oppfyller kravene i EN438:2005.

Grade MTF med IMO/MED og USCG brannkravgodkjenning.

Be gjerne om spesifikke detaljer.

Klassifisering av brannmotstandsdyktighet EN 13501-1:2010-01 B-s1, d0

Kvalitet VGS: Vertikalt, standard, dekorativt høytrykkslaminat til generell bruk (1,3 mm nominell tykkelse)

M5316 Korten fhar en melaminoverflate med jernpartikler. Noe magnetisk effekt kan forekomme. Det kan komme gnister under behandling.

M5316 Korten er en håndlaget design og hver separate plate er unik. Variasjoner mellom plater er et kjennetegn for design- og produksjonsprosessen.

Formica® Magnetic Laminate

Kvalitet MLB:

Magnetisk standardlaminat.

MLB er ikke med i kvalitetsklassifiseringssystemet EN 438.

Younique® by Formica Group

Kvalitet HPL/EN 438-3 HGP:

Dekorativt, horisontalt, høytrykkslaminat til generell bruk, postformbar. (0,7 mm nominell tykkelse).

Kvalitet HPL/EN 438-3 HGS:

Dekorativt standard høytrykkslaminat til generell bruk. (0,9 mm nominell tykkelse).

Kvalitet HPL/EN 438-4 CGF*:

Kompakt, dekorativt, brannhemmende høytrykkslaminat til generell bruk. (3-20 mm nominell tykkelse).

Kvalitet HPL/EN 438-4 CGS:

Kompakt, dekorativt standard høytrykkslaminat til generell bruk. (3-20 mm nominell tykkelse).

Kvalitet VFP*:

Dekorativt vertikalt, brannhemmende høytrykkslaminat, kan postformes. (0,7 mm nominell tykkelse).

VFP er ikke med i kvalitetsklassifiseringssystemet EN 438.

**Fås kun med silketrykk.*

Informasjonen i denne produktkatalogen er korrekt på utgivelsestidspunktet. Ettersom vi driver løpende produktutvikling og -forbedring, kan produktdetaljer endres i fremtiden.

Formica Group er FSC®-sertifisert og oppfyller kravene i FSC. Nettverk av deltagende Europeiske Formica Group nettsteder er vist på serti-fikat nummer TT-COC-003588.
